

COVID-19 Testing for Kids and Families

MDH announced a recommendation for all school-age youth returning to school, youth sports, or extracurricular activities, and their families, to get tested every two weeks through the end of the school year. While it is not a requirement, regular testing complements other safety measures already in place, such as masking and social distancing.

Schools and youth organizations can send messages and resources available on [COVID-19 Testing for Kids and Families](#) to families to encourage testing. Getting

tested every two weeks from now until the end of the school year can help keep schools open and sports operating, and ensure we are limiting the spread of COVID-19.
