Most Holy Redeemer
CATHOLIC SCHOOL

As part of our planned capital improvements, all the windows of the 1949 addition are being replaced. The older part of the school has had some issues with air circulation, and by replacing these windows, the problem should be corrected. This challenging project is supervised by Ted Odenthal. Thank you, Ted! In addition to addressing practical concerns, the new windows will bring more natural light into the rooms, and that, research indicates, is good for learning!

I encourage parents to investigate the session that CSCOE is offering. (Details below.) The program will share tips for how parents can guide their children in using social media and other platforms. Originally created as a way for scientists to share information, the Internet is merely a tool. It does offer a different kind of window onto the world, and we, of course, have an obligation to teach our children how to use it for good.

"The Lord is my light and salvation. Whom shall I fear?" --Psalm 27:1

Parent Session

"Technology, Social Media, Screen Time and Parenting,"
November 22 at 7 p.m.

The use of social media and technology is one of the most popular areas of concern for parents of children and adolescents. How much is too much? How do we keep our kids safe online? What about the constant social comparisons? This session will focus on the latest research on use of social media and technology. It also will help us understand the relationship between brain development and what drives the need to feel connected online, as well as those areas of big concern like pornography and algorithms that target adolescent vulnerabilities. Parenting tips will be offered.
